## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-33 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-7, 9-18, 20-29, and 31-33 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 5a wherein the computer system for estimating jitter in a phase locked loop comprises software instructions stored in the memory adapted to cause the computer system to: obtain a representative power supply waveform having noise (172); digitize the representative power supply waveform having noise (174); simulate operation of the phase locked loop prior to fabrication of the phase locked loop using the digitized representatively power supply waveform having noise as a power supply input to the phase locked loop (178), (see specification paragraph [0030]) in combination with the rest of the limitations of the base claims and any intervening claims. Claims 8, 19, and 30 are allowed because the closest prior art of record fails to disclose a circuit as disclosed in the specification page 10, paragraph [0031] in which the simulation of the power supply is performed using a first simulation tool and the simulation of the phase locked loop is performed using a second simulation tool in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
